

DSM2 GOTCHA

- DSM2MODIFIER – 23 characters max
 - If it is longer:
 - Part F (32 character limit) gets truncated on fingerprinting (EC & Vol)
 - DSM2MODIFIER+From-SAC can become “...From-S”
 - DSM2MODIFIER+From-SJR can become “...From-S”
 - Causing overwriting of .dss records
 - Resulting in incomplete .dss file data output
 - Just 4 fingerprint records instead of 6

DSM2 GOTCHA

- Water Transfers, caution when output is nearby

Example:

- Flow and stage output unreliable for ch134
